

# **DETEX®**

## **ECL-230D ALARMED DEADLOCK FOR FIRE, EMERGENCY AND EXIT DOORS**

**DETEX ECL-230D** is a heavy-duty stand-alone surface mounted deadlock, with a large red exit paddle. Signage is in both English and Braille. Pushing the paddle will unlock the door and will sound a loud 95 dB alarm, enabling an immediate reaction. No wiring or external electronics are required. After escape, the alarm can only be reset by means of the by-pass key, which also re-locks the deadlock.

### **BENEFITS:**

- UL listed panic hardware
- No special knowledge needed to escape
- Alarmed exit device – no wiring required
- Prevents unauthorized access from outside
- Withstands 1000 Kg outside pull force

### **FEATURES:**

- **10 year limited factory warranty**
- Not handed - fits left or right hand doors
- Rugged die-cast aluminium alloy housing
- Loud 100dB internal battery operated alarm
- Easily replaceable alkaline battery behind locked cover
- Saw-resistant 25mm deadbolt resists outside attack by crowbars.
- Uses one readily available 9 volt PP3 battery (Duracell MN1604 or Rayovac A1604)

### **OPTIONS:**

- Internal key bypass cylinder can be high security, keyed-alike or master-keyed
- External key by-pass for authorized entry – available in high security, keyed -alike or master-keyed
- Longer paddle bar available for wider doors (Specify model ECL-230PH)
- Power supply and door loop for connection to 220V AC supply
- Model ECL-600 with deadlock & latch bolt. Optional locking handle outside
- For double doors - extra hardware required for fixed leaf

**DETEX ECL** series are ideal for shops, warehouses, hospitals, office buildings, stock rooms, schools, factories or any premises where the fire escapes are likely to be abused in order to pilfer high value items. They are easily fitted using standard carpenter's tools and the templates provided.
