7435 Cape Town,
South Africa
B14 Sanlam Business
Park, Racecourse Road,
Milnerton

CELEBRATING OUR 40th YEAR OF DEDICATION TO SECURITY IN SOUTHERN AFRICA!

CAN YOUR SHOPPERS ESCAPE IN AN EMERGENCY?

DO YOUR PREMISES COMPLY WITH FIRE REGULATIONS

- or will they be closed down until they do?

Just a few examples of what we can offer:

DETEX V40 SERIES meet South African requirements for “escape initiated by body weight” in designed occupancies of over 25 or more persons.

Panic touch bar with vertical locking rods – can be used on single doors – or to secure the fixed leaf of double doors

DETEX V40 SERIES – the preferred solution. Pressure against the panic bar opens the door, setting off a 95 dB alarm.

DETEX ECL-600 - for narrower doors Pressure against the push pad opens the door, setting off a 95 dB alarm

SA National Standards TUBES are permitted on knowledge be required

#10400T stipulates that NO KEYS or BREAK GLASS any emergency exit doors, nor may any special to allow escape.

LOSS CONTROL & FIRE EXITS CAN CO-EXIST!
SPECIFY AND USE *DETEX* ALARMED EXIT DEVICES
- AND KNOW WHEN FIRE EXITS ARE BEING ABUSED!

- We have many different safe, cost effective solutions for single and double door outward-opening emergency exits, using compliant top quality fire-rated panic hardware and fire-rated door closers
- We can check and test your existing doors and hardware at hourly rates
- David Miller can consult and furnish a report on your emergency exit hardware at hourly rates

Can your shoppers escape? 150801
