## SECURITY INFORMATION WITHOUT ROCKET-SCIENCE

### MASTER-KEYING & KEYING-ALIKE

#### A MASTER-KEYED LOCK:

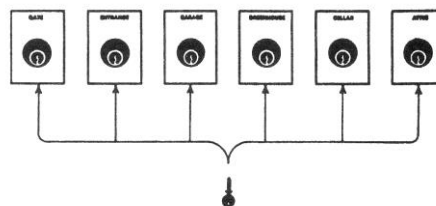

Is one of a set of locks specially made so that each lock has its own individual key or keys, and a Master-key is supplied that fits all the locks in that set.

Usually supplied with two individual keys per lock, and two Master Keys to fit all locks in the set

#### A KEYED-ALIKE LOCK:

Is one of a set of locks, all made to fit the same key, where individual keys are not required. Keyed-alike locks can often be supplied at little or no extra cost.

Usually supplied with a maximum of one key per lock – which fits all the locks in the set

## HAVE ONE KEY FOR ALL DOORS !

- Less keys to be borrowed and copied
- Faster evacuation in emergencies!
- Faster access to doors
- No more key-fumbling in the dark

**Reduce your key burden by having all your locks master-keyed or keyed-alike to your own exact requirements.**

Door locks, latches, padlocks and even key-switches can be included in the system, provided they are all of the same brand or type. This can be done with most of the better-quality locking systems – if planned and ordered correctly in advance.
