Can be programmed to operate with PIN code, cards, tags, or wristbands

F430 76 002 Digital Cabinet Lock

**F430 76 003
Locking staple A**

Typical Sliding Door operation

**F430 76 004
Locking staple B**

Typical hinged Door operation

OPERATION:
PRIVATE MODE:
Unlocks with the user's PIN code, card, tag, or wristband

GUEST /PUBLIC MODE: (Gym Locker applications)
The locker is by default left UNLOCKED / OPEN

Card Operation: The guest / user locks the locker, using
his/her own Mifare card (credit card, new SA ID card), tag or wristband.
The **same** card, tag or wristband must then be used to open it again.
The locker is then ready for the next user.

Code Operation: The guest / user locks the locker, using his/her own pin code.
The same pin code must then be used to open it again.
The locker is then ready for the next user.

PIN Nos, cards, tags, or wristbands can be deleted and added using the Admin card
