**DETEX®**

## ECL-230D ALARMED DEADLOCK FOR FIRE AND EMERGENCY EXIT DOORS

**DETEX ECL-230D** is a heavy-duty stand-alone surface mounted deadlock, with a large red exit paddle. Signage is in both English and Braille. Pushing the paddle will unlock the door and will sound a loud 95 dB alarm, enabling an immediate reaction. Battery powered - no wiring or external electronics are required. After escape, the alarm can only be reset by means of the by-pass key, which also re-locks the deadbolt. This device does not re-lock automatically.

### BENEFITS:

- UL listed panic hardware
- No special knowledge needed to escape
- Alarmed exit device – no wiring required
- Prevents unauthorized access from outside
- Withstands 1000 Kg outside pull force

### FEATURES:

- **10 year limited factory warranty**
- Not handed - fits left or right hand doors
- Rugged die-cast aluminium alloy housing
- Loud 100dB internal battery operated alarm
- Easily replaceable alkaline battery behind locked cover
- Requires only 500 mm between sides of the door frame
- Saw-resistant 25mm deadbolt resists outside attack by crowbars.
- Uses one readily available 9 volt PP3 battery (Duracell MN1604 or Rayovac A1604)

### OPTIONS:

Internal key bypass cylinder can be high security **CISA ASTRAL TEKNO S01** or **C3000 T06**, and/or Keyed - alike or Master-keyed, at nominal extra cost

- External key by-pass for authorized entry available at extra cost.
- Longer paddle bar available for wider doors (Specify model ECL-230PH)
- Model ECL-600 with self-re-locking latchbolt + deadbolt, optional handle for outside operation.
- **For double doors - extra hardware is required** for the fixed (second-opening) leaf

**DETEX ECL** series are ideal for door frames too narrow for **DETEX V40** or **ECL-600** series, in shops, warehouses, office buildings, stock rooms, factories or any premises where the fire escapes are likely to be abused in order to threaten life safety or pilfer high value items. They are easily fitted using standard carpenter's tools and the templates provided. More information on **DETEX** panic and emergency exit hardware is available on request or at [www.lockshop.co.za](http://www.lockshop.co.za)
